

1570 Midway Pl.
Menasha, WI 54952

Dear Associate,

As part of the COVID-19 Public Health Emergency (PHE), Network Health has been temporarily covering all COVID-19 vaccines, tests and treatments at no cost share. On January 30, 2023, the Biden Administration announced the PHE will end on May 11, 2023. This means as of May 12, 2023, your plan will no longer cover COVID-19 tests and treatments at no cost share. Your plan will, however, continue to cover COVID-19 vaccines received at in-network providers at no cost share.

The Wisconsin Department of Health and Human Services is offering free over-the-counter testing kits. Each month, each Wisconsin household is eligible for one free test kit containing five rapid antigen COVID-19 tests. You can request your free monthly test kit by visiting sayescovidhometest.org.

If you have any questions regarding this letter, feel free to call our member experience team at the number on the back of your ID card. If you'd prefer to receive this type of communication electronically in the future, please sign up for the member portal at login.networkhealth.com.

Thank you for being a Network Health member.

Sincerely,

Cara Techlin
